

Attention: All Real Estate Agents and Homeowners

Realtor

Do you feel resistance from clients as you try to stage their homes? Does your list of suggestions seem to overwhelm them? Or maybe they just don't have the time to get everything done on the list?

Homeowner

Are you trying to work with your agent to de-clutter and simplify your home but are feeling very overwhelmed! Wondering how you are going to get everything done on list. So you panic and you start throwing things out? Getting rid of things you will only have replace after the move.

PSST Want to know a Secret?

Hire a professional organizer, before the home stager and before the open house. Meet with your Real Estate Agent and your professional organizer to get the list of what needs to be done within the home to make it SELL.

A professional organizer can box up the things that are not needed right now, and inventory the contents so that you can find everything after the open house. Once these items are packed up and put somewhere safe, the home stager can really make your home shine!

Karen Kenney of OrganizingWORKS is an experienced professional organizer, who can help get your home ready to sell. Karen can help the whole team, the homeowner, the real estate agent and/or the home stagers. It will be WIN-WIN for everyone, and isn't that what selling your home is all about?

For free consultation call Karen at 781-275-8915.
